Mr. Rodney Slater  
Docket Management Facility  
U.S. Dept. of Transportation  
Washington, D.C.

Dear Mr. Slater:

I am asking you to please approve the change for Wayne County, Kentucky.

I have worked in Somerset, Kentucky for twenty-seven years. I have always found the time difference to be a problem for several years.

I am not the only member of my family that is affected by the time difference. My grandson goes to college in Somerset and works in Monticello of a night. It would be much easier on him if both counties were on the same time.

As you know Monticello is not a very large city. A great deal of shopping and doctor visits must be done in Somerset or Lexington. If Monticello were in the Eastern Time Zone it would be easier to do these things.

I can not speak for the farmers, but if I could work at home all day, the time would not matter either way to me.

Thank you for your help in this matter.

Sincerely,

*Loretta A. Crowley*
